Lessons Learned from GASB 87

Prepare Early - It takes time to meet with your departments to gather those IT agreements.

Plan for Challenges - Software companies will do some heavy lifting but you will still need to understand the standard.

Document everything - Make sure to note down anything that could be applicable.

Plan to be done early - CPA firms will have higher expectations and that means their clients should prepare early.

Step 1: Creating Your Implementation Roadmap

- Identify who is responsible for each step
- Determine the timing of each step

GASB 96 IMPLEMENTATION ROADMAP (STEP 1)															
	GASB 96 Implementation Steps	Total Weeks Needed	Weeks Remaining	Week 1	Week 2	Week 3	Week 4	Week 5	Week 6	Week 7	Week 8	Week 9	Week 10	Week 11	Week 12
STEP 2	Collecting and Organizing Subscriptions <u>Responsible Parties:</u> Mary, Accounting and Jeff, Legal	2	2												
STEP 3	Extracting the Data <u>Responsible Parties:</u> Mary, Accounting and Department Leaders	2	2												
STEP 4	Crafting the Initial Schedules <u>Responsible Parties:</u> Mary, Accounting and Michele, Accounting	2	2												
STEP 5	Launching the Internal Review Process <u>Responsible Parties:</u> Jeff, Finance and Stacy, Accounting	3	3												
STEP 6	Understanding the Importance of Journal Entries Responsible Parties: Mary, Accounting	1	1												
STEP 7	Preparing Note Disclosures <u>Responsible Parties:</u> Susan, Financial Reporting	2	2												
STEP 8	Adhering to Ongoing Compliance <u>Responsible Parties:</u> Mary, Accounting and Department Leaders	9	9												

Step 2: Collecting & Organizing Subscriptions

- Requirements that are **<u>SIMILAR to Leases</u>** under GASB-87
 - Contract must convey control of the right to use another entity's IT software
 - IT software must be controlled for a period of time in exchange/exchange-like transaction
- Requirements that are **<u>NEW to Subscriptions</u>** under GASB-96
 - Does the IT software contract contain a tangible capital asset?
 - Is the IT software component insignificant compared to the tangible capital asset?
 - Is the contract a perpetual licensing agreement?

Collecting & Organizing Subscriptions: Project Costs

• IT Subscription Agreements may have costs that should be capitalized

STAGES OF IMPLEMENTATION	EXAMPLES
Preliminary Project Stage (Expensed as Incurred)	Determination of existence of needed technology, selection of alternatives
Initial Implementation Stage (Capitalizable)	Coding, testing, installation
Operation & Additional Implementation Stage (Expensed as Incurred)	Maintenance, troubleshooting, implementation of additional modules

- Costs incurred prior to the following should be expensed as incurred:
 - Determination of the specific objective of the project and nature of service capacity expected
 - o Demonstration of technical or technological feasibility
 - o Demonstration of current intention, ability and presence of effort

Polling Question

Step 3: Extracting the Data

- Consider using a checklist
- Include those who are familiar with the contract details
- There are four primary categories of information:

Extracting the Data: Subscription Term

- Extension options
- Termination options
- Fiscal funding or cancelation clauses
- Cancelable periods
 - Both government and vendor can terminate without permission from the other or both parties must agree to extend

Ex. rolling month-to-month subscription and holdover periods

Extracting the Data: Payments

- Fixed payments
- Variable payments
 - Variable payments fixed in substance
 - Variable payments based on an index or rate
 - Variable payments based on future performance (exclude)
- Termination penalties, contract incentives, other payments

Extracting the Data: Other Payments / Costs

- Payments Made at Commencement
 - Included as an increase in the Subscription Asset
- Capitalizable Initial Implementation Costs
 - Included as an increase in the Subscription Asset
- Prepayments and Incentives Received Before Commencement
 - Prepayments minus Incentives Received Before Commencement = Asset or Liability Prior to Commencement
 - Reclass as an addition (Asset) or subtraction (Liability) to Subscription Asset at commencement

Subscription & Non-Subscription Components

- Multiple underlying IT assets
 - Different subscription terms
- Non-subscription components
 - Common examples: separate perpetual licensing agreement, maintenance services
 - Treat separately from subscription component
- Allocate contract price
 - Prices included in the contract
 - Best estimate; if not practicable, treat as one component

Step 4: Crafting the Initial Schedules

- Discount the subscription payments using the appropriate interest rate to determine your subscription liability beginning balance
- Use payments made at commencement, capitalizable initial implementation costs, incentives, and prepayments to adjust the subscription asset
- Consider materiality

	SUBSCRIPTION LIABILITY									SUBSCRIPTION ASSET					
	Beginni		g Subscription		Interest		Ending			Beginning Balance		Amortization Expense		Ending Balance	
Date	Balance		Payment		Expense		Balance								
1/31/21	\$	5,849.09	\$	225.00	\$	10.97	\$	5,635.06		\$	5,999.09	\$	166.64	\$	5,832.45
2/28/21	\$	5,635.06	\$	225.00	\$	10.57	\$	5,420.62		\$	5,832.45	\$	166.64	\$	5,665.81
3/31/21	\$	5,420.62	\$	225.00	\$	10.16	\$	5,205.79		\$	5,665.81	\$	166.64	\$	5,499.17
4/30/21	\$	5,205.79	\$	225.00	\$	9.76	\$	4,990.55		\$	5,499.17	\$	166.64	\$	5,332.52
5/31/21	\$	4,990.55	\$	225.00	\$	9.36	\$	4,774.90		\$	5,332.52	\$	166.64	\$	5,165.88
6/30/21	\$	4,774.90	\$	225.00	\$	8.95	\$	4,558.86		\$	5,165.88	\$	166.64	\$	4,999.24
7/31/21	\$	4,558.86	\$	225.00	\$	8.55	\$	4,342.41		\$	4,999.24	\$	166.64	\$	4,832.60
8/31/21	\$	4,342.41	\$	225.00	\$	8.14	\$	4,125.55		\$	4,832.60	\$	166.64	\$	4,665.96
9/30/21	\$	4,125.55	\$	225.00	\$	7.74	\$	3,908.28		\$	4,665.96	\$	166.64	\$	4,499.32

Crafting the Initial Schedules – Example

Present value calculation inputs in Excel:

- **Rate:** 5% = Stated, Implicit or IB Rate
- Number of Periods (nper): 24 = calculated lease term
- **Payment (pmt):** \$5,000 = Total SBITA payment
- **Type:** 0 for payments at the end of the period or 1 for payments at the beginning of the period

Interest Rates

Step 5: Launching the Internal Review Process

- Identify who will be the internal reviewer(s) well in advance
- Make sure all assumptions are properly documented with support
- Consider time and personnel constraints and evaluate using an outside specialist

Polling Question

Step 6: Understanding the Importance of Journal Entries

- These entries may not be as complex as you think
- All entries related to GASB-96 will be highly susceptible to auditor scrutiny
- In some cases, a restatement will be necessary

	FULL ACCRUAL JOURNAL E	NTRIE	S		
1/1/21	Right-of-Use Asset	\$	5,999.09		
	Subscription Liability			\$	5,849.09

Polling Question

Step 7: Preparing Note Disclosures

- General description
 - Include basis, terms and conditions variable payments not included in subscription liability are determined
- Be sure to list right-of-use assets separately from other capital assets
- Outflows recognized for other payments not included in subscription liability (Example: termination penalty)
- Principal & interest requirements to maturity
 - 5 subsequent fiscal years and then 5 year increments thereafter
- Commitments before commencement
- Any loss associated with impairment

Step 8: Adhering to Ongoing Compliance

- Use a central location for all contracts
- Document the processes as you work through them in the current fiscal year
- Review processes regularly
