

LSL is looking for a Senior/Supervisor to join our Government Services Consulting team. As industry leaders in government auditing and accounting, LSL is a chosen solution for clients who are short staffed or who have fallen behind. With offices in California and Texas, we serve clients across the country, and so can you. Government Services is a rapidly growing department at LSL and is looking for hard working, dedicated professionals who have a passion for serving the community.

Responsibilities

- Provide timely, high quality client service that meets or exceeds client expectations including coordinating day-to-day accounting responsibilities including journal entry preparation, bank reconciliation, account reconciliations
- Conduct year-end close procedures and prepare audit schedule for year-end audit
- Assist client in facilitation of the year-end audit
- Supervise staff under the supervision of a manager and function as an in-charge facilitating work by monitoring and reporting regarding productivity and adherence to work plan schedules on each assignment
- Anticipate and address client concerns and escalate issues as they arise
- Identify efficiency improvement opportunities

Your Skills and Qualifications

- BS/BA Degree in Accounting or equivalent degree
- 4+ years of current or recent experience in a government agency or public accounting firm specializing in government auditing and accounting
- Understanding of accounting services with knowledge of GASB and government financial reporting
- Experience performing bank reconciliations, month-end close, year-end close, capital asset accounting, purchasing, budget development, etc.
- Willingness to take supervision and guidance

Benefits

The firm offers a competitive benefits package, base compensation, and an employee bonus program for eligible roles based on individual and firm performance per program guidelines.

Work Authorization:

Must be authorized to work in the United States permanently without the requirement of sponsorship at any point in the future.
