## Top Firms: The West

California, Nevada, Oregon and Washington

Total revenue: \$3,080.04 million Average firm growth: 5.77%

There was a major change in the West, with perennial chart-topper Moss Adams (and one of the relatively few non-California-based Regional Leaders) merging with Baker Tilly in the spring, moving over a billion dollars in revenue out of the region, which reported the lowest average growth rate despite standout performances from firms like Ascend member Lucas Horsfall, at a scorching 64%.
